

Environmental Systems Science Centre (ESSC) University of Reading

SEMINARS

Winter Term 2010

- 14 Oct **Helen Brindley** (Imperial College) "Investigating dust radiative effects with GERB and SEVIRI"
- 21 Oct **No Seminar (e-Science Directors' meeting)**
- 28 Oct **Catherine Hayer** (ESSC) "SO₂ measurements from OMI at Soufriere Hills Volcano, Montserrat"
Tom Philp (ESSC) "Extra-Tropical Cyclones: Satellite Observations vs Climate Reanalyses "
- 4 Nov **Nicola Howe** (ESSC) "The relationship between variability in surface density fluxes and the thermohaline circulation."
- 11 Nov **Wouter Buytaerte** (Imperial College) "On the role of simulation for ecosystem services management: case studies from the tropical Andes"
- 18 Nov **Andy Hodson** (University of Sheffield) "Ice Surface Ecosystems"
- 25 Nov **Craig Underwood** (Surrey Space Centre) "Space Engineering at the Surrey Space Centre"
- 2 Dec **Jeff Neal** (University of Bristol) "Estimating discharge from inundation imagery"
- 9 Dec **Speaker TBD**
- 16 Dec **Anne Verhoef** (Soil Research Institute, SHES, Reading) Title TBC

All seminars are held in the ESSC Seminar Room (room 175, Harry Pitt building) and all start at 14:00^[js1]
